

Big Bolt Nut

Stainless Steel Fasteners Manufacturer In India

***Biggest Manufacturer of
Larger Diameter Bolts in India***

Stainless Steel bolts from M-20 to M-100 diameter

We are specialized manufacturers of hot forged bolts and nut in bigger diameters from M-20 to M-100, with in house hot forging we ensure perfect quality as per the required standards and graded in DIN, ISO, ASTM, IS, JIS, BS. With high powered synthesis of experience, process know how and innovation, we hold the leading edge in manufacturing excellence and state of the art production facilities at our works in Kundli Industrial area in Haryana (INDIA).

We offer cost effective solutions to our customers in their field. Our business philosophy is based upon principles focussing on customers, providing superior products and services, every time.

100% Machining on CNC Machines

We have a long history of innovation and developing fasteners and allied products for very high end quality minded customers. We provide our customers with our expert knowledge which we have developed over the years by investing in research and development in our works. At our organization, Innovation, reliability and performance are the main mottos.

100% rolling on Hydraulic thread rolling machines

A good start at the scratch is always a good finish at the end. Rolled thread is the ultimate solution to get more strength and fatigue by 20% due to uniform grain flow and unbroken fiber lines. We provide 100% rolled threads as per standard with 100% guaranteed GO and NOGO thread fits for all bolts manufactured by us.

Big bolt nut - hot forged stainless steel and high tensile bolts and sockets in grades 8.8, 10.9 and 12.9, SS 304, SS 316, SS 316 L, 316S31, 316S33, A2 & A4, ASTM Grades B8, B8M in Class 1 and Class 2

We manufacture hot forged bolts and nuts, we offer bolts from M-16 diameter to M-64 diameter in any length upto 1200 mm long. We are specialized manufacturers in Stainless steel and alloy steel grades as per international steel norms.

High Tensile Bolts & Nuts

We at Rollfast manufacture speciality fasteners in many grades in stainless steel and alloy steel. Our expertise over the years has resulted in us providing material in shorter delivery times as per customers drawings or prototype samples.

- Hex Bolts in DIN 931 and 933
- Hex nuts as per DIN 934
- Socket head bolts and screws DIN 912
- Stud bolts & nuts ASTM-A-193 and A-194
- Foundation bolts
- Anchor Bolts
- DIN 2510 double ended reduced shank stud bolts
- Bolts, nuts, stud bolts made as per drawings

In House heat treatment

Heat treatment is most important aspect of manufacturing bolts and nuts, at Rollfast we have the latest heat treatment furnace at controlled atmospheric conditions to provide the best grain structure and heat treated high tensile quality bolts and nuts.

Testing and quality control

We have a long standing tradition of providing uncompromised quality fasteners, We relentlessly conduct series of quality checks like UTS testing, profile checks, destructive and all other kinds of non destructive testings.

Direction

Soaring high is my nature, that is the mantra at kapil enterprises. Our continuous growth rate of over 600% year after year reflects the goal we need to achieve. We stand alone with cutting edge technological solutions that give our customers the competitive edge.

Our sales turnover has surpassed USD \$ 3 million in the year 2012 and we are exporting fasteners in over 56 countries in 5 different continents all over the world.
